DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-8, 11-14, and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear if the claims define a microcontact structure per se or the combination of such a structure with other elements to effect positioning of the microcontact structure. It is unclear if the shape modifying means is an element of the microcontact structure or an external device employed to effect the shape modification. In addition, claim 5 is vague as to whether the reducing means is a positive element of the structure in light of the capable language. Claim 7 is unclear as to the location of the contiguous regions (i.e., on the carrier?). Regarding claims 11 and 12, the word "means" is preceded by the word(s) "surgical device" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).
